

## 12/15/21 Chief's Report

-The AP Triton report is completed and has been distributed to members. The chiefs agreed to publish it on our websites on Friday with neutral language with no decision language at this time.

-Inter-Canyon Fire had a 12 acre wildland fire on December 5. Indian Hills, Elk Creek, West Metro, and Foothills Fire responded mutual aid. It appears to have been intentionally set.

-Snowpack remains well below normal this time of year with some locations reporting 25% normal and the South Platte basin averaging about 65% of normal.

-Evergreen Fire no longer able to do Airpack testing. The tech went to another department. We've resumed using MES for our Airpack service.

-Evergreen Fire Chief is in conversations with Genesee, Highlands Rescue, and Foothills about consolidation and Mike reached out to me to invite Indian Hills into the conversation.

### Calls for November:

1-Cancelled Enroute

3-Medicals

1-Lift assists

3-MVAs

1-Good Intent

1-Wildland Fire

10- For November and we're up to 149 on the year
